This Volume contains the books: - Astral Projection for Beginners - Money Magic for Beginners - Love Spells for Beginners - Magic Research for Beginners - Chakra Magic for Beginners - Mandalas for Beginners - Magic Chants for Beginners

The purpose of The Phenomenology of Astral Magic, is not to instruct the student in the practice of astral magic-for this would be irresponsible-but rather to teach the student what the practice of astral magic means, and why the practice of all forms of magic are inherently destructive. This understanding will be of use to all, but will be of particular importance to those who are training in the skills of astral combat, with the express purpose of defending themselves and their loved ones against the perpetual onslaught of negative energy we now all face.

An exploration of John Dee ' s Enochian magic of angel contact, its reinterpretation over the years, and its endurance to the present day.

This profusely illustrated new edition brings together the complete texts of all four parts of Liber ABA (Book 4) in one volume under the overall title 'magick' This edition incorporates Crowley's own additions, corrections and annotations, and restores dozen of passages omitted from the first editions.'Magick' is the fundamental textbool of modern magick in the New Eon. Ita also has invaluable teachings for studentes of Yoga and meditation.Crowley mastered the practices of Yoga during his studies in the East and writes about them lucidly, without recourse to the imprecise language of mysticism. Beginning with a discussion of the universal origin of world religions in mysticalrevelation, 'Magick' then explores the theory and practice of mysticism and magick in the light of modern scientific thought.

Offers a full introduction to and survey of runes and runology: their history, how they were used, and their interpretation.

This series of books written by Tudorbeth explore and explain the occult transformations that exist between and within the seasons. Honouring each season as a time to celebrate and embrace the magic and the miracles that unfold within the Earth, this book takes us on a journey of discovery into the world of seasonal magic. Overflowing with rituals, spells, recipes and traditional customs, this book shows us how to celebrate the bewitching changes that Autumn brings. The author also unveils the myths and stories of the gods and clearly explains the correspondences with the trees, plants, colours, days, oils and crystals of Autumn.

This book examines the spiritual dimensions found in the literature of the fantastic (science fiction, fantasy, and magical realism) by linking such novels to actual currents within the feminist spirituality movement. Fusing popular culture studies, women's studies, and close textual analysis, the author moves beyond earlier studies that fail to address the genre's use of goddess worship, psychic phenomena, and reverence for the earth. She reveals how such attributes betoken a spiritual awakening with profound implications for contemporary feminism. Special emphasis is given to both the struggle to provide an alternative to men-centered experience and to the need to articulate ways in which feminists can achieve personal and social power. The authors studied represent a variety of American voices, and include both firmly established and newer writers such as Marion Zimmer Bradley, Kim Chernin, Alice Walker, Mercedes Lackey, Patricia Kennealy, Gael Baudino, Octavia Butler, Lynn Abbey, Joan Vinge, Toni Morrison, Gloria Naylor, Ntozake Shange, and Starhawk.

Two generations of American music lovers have grown up listening with Robert Christgau, attuned to his inimitable blend of judgment, acuity, passion, erudition, wit, and caveat emptor. His writings, collected here, constitute a virtual encyclopedia of popular music over the past fifty years. Whether honoring the originators of rock and roll, celebrating established artists, or spreading the word about newer ones, the book is pure enjoyment, a pleasure that takes its cues from the sounds it chronicles. A critical compendium of points of interest in American popular music and its far-flung diaspora, this book ranges from the 1950s singer-songwriter tradition through hip-hop, alternative, and beyond. With unflinng style and grace, Christgau negotiates the straits of great music and thorny politics, as in the cases of Public Enemy, blackface artist Emmett Miller, KRS-One, the Beastie Boys, and Lynyrd Skynyrd. He illuminates legends from pop music and the beginnings of rock and rollN George Gershwin, Nat King Cole, B. B. King, Chuck Berry, and Elvis PresleyN and looks at the subtle transition to just plain Ó rockÓ in the music of Janis Joplin, the Rolling Stones, Eric Clapton, Aretha Franklin, James Brown, and others. He praises the endless vitality of Al Green, George Clinton, and Neil Young. And from the Rolling Stones to Sonic Youth to Nirvana, from Bette Midler to Michael Jackson to DJ Shadow, he shows how money calls the tune in careers that aren't necessarily compromised by their intercourse with commerce. Rock and punk and hip-hop, pop and world beat: this is the music of the second half of the twentieth century, skillfully framed in the work of a writer whose reach, insight, and perfect pitch make him one of the major cultural critics of our time.

Mysticism and esotericism are two intimately related strands of the Western tradition. Despite their close connections, however, scholars tend to treat them separately. Whereas the study of Western mysticism enjoys a long and established history, Western esotericism is a young field. The Cambridge Handbook of Western Mysticism and Esotericism examines both of these traditions together. The volume demonstrates that the roots of esotericism almost always lead back to mystical traditions, while the work of mystics was bound up with esoteric or occult preoccupations. It also shows why mysticism and esotericism must be examined together if either is to be understood fully. Including contributions by leading scholars, this volume features essays on such topics as alchemy, astrology, magic, Neoplatonism, Kabbalism, Renaissance Hermetism, Freemasonry, Rosicrucianism, numerology, Christian theosophy, spiritualism, and much more. This handbook serves as both a capstone of contemporary scholarship and a cornerstone of future research.

Alien miners traveling thousands of light years through space in search of colored diamonds discover the rare stones on earth at the bottom of the East China Sea. The aliens are discovered using a new sensor able to detect perturbations in the streams of neutrinos constantly passing through the planet. But the earthling ' s ability to stop the marauders appears to be as futile as honeybees attempting to protect the hive from a bear. The government seeks help from an international thief and a cadre of psychic spies. Hope of stopping the plunder may rest with an overlooked discovery of a new source of antimatter.
