This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: The Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Next Generation Science Standards identifies the science all K-12 students should know. These new standards are based on the National Research Council's A Framework for K-12 Science Education. The National Research Council, the National Science Teachers Association, the American Association for the Advancement of Science, and Achieve have partnered to create standards through a collaborative state-led process. The standards are rich in content and practice and arranged in a coherent manner across disciplines and grades to provide all students an internationally benchmarked science education. The print version of Next Generation Science Standards complements the nextgenscience.org website and: Provides an authoritative offline reference to the standards when creating lesson plans Arranged by grade level and by core discipline, making information quick and easy to find Printed in full color with a lay-flat spiral binding Allows for bookmarking, highlighting, and annotating

Provide your 3rd graders with rigorous reading comprehension practice! Close reading, vocabulary, comprehension, and writing activities support Common Core learning paths. Plus, downloadable home-school connection activities extend learning at home.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

Follows California ' s efforts at reforming the public school system from 1983 to the present.

Achieving College Dreams: How a University-Charter District Partnership Created an Early College High School tells the story of a remarkable 10-year collaboration between the University of California, Berkeley and Aspire Public Schools to develop and nurture the California College Preparatory Academy. Bridging the two cultures--artfully described as "Pac-Man (the charter district) meets chess (the university)"--the school serves as an exemplar in providing low-income and first-generation college youth with an excellent and equitable education. Framed by a longitudinal lens, findings from community-engaged scholarship, and a diversity of voices from students to superintendents, this book charts the journey from the initial decision to open a school to the high school graduation of its first two classes. The book captures struggle, improvement, and success as it takes readers inside the workings of the partnership, the development of the school, and the spillover of effects across district and university. Confronting the challenge of interweaving rigor and support, its authors explore such critical ingredients as teacher-student advisories; school transition; the home-school divide; building a supportive college-preparatory culture; teaching with depth, relational power, and equity; the forging of an academic identity; and scaling up. At a time of sharply unequal schools, glaring disparities in college readiness, and heightened expectations, Achieving College Dreams uniquely extends the knowledge base about how to better prepare underserved students for college eligibility and success. The book also calls for universities to step up to the plate as partners with districts to ensure both excellence and equity in secondary education for all children.

California Jeopardy Our most popular state book! Modeled after the popular TV game show; features 'categories' like California history, geography, exploration, people, statehood, state attractions and lots more. Each category lists educational & entertaining answers-the student gives the correct question! Students can read the book on their own, teachers can use it as a classroom game, create a Jeopardy center or put it in your library. Great for building quick-thinking skills. Includes approximately 30 categories and 150 Q&As.
