Nelson Physics 12 provides a rigorous, comprehensive, and accurate treatment of all concepts and processes presented in Ontario's Physics, Grade 12, university Preparation course (SPH4U). This resource thoroughly equips students with the independent learning, problem-solving, and research skills that are essential to successfully meet the entrance requirements for university programs. Complex Physics concepts are presented in a clear, understandable fashion and key concepts, such as static equilibrium, are treated in greater depth than specified in the curriculum.

Photographs illustrate the author's account of his voyage from Peru to Tahiti on a balsa raft to test a theory concerning the origins of the Polynesian race

Class tested by over 10,000 students and written by an author team with over 75 years of teaching experience at both the high school and University level, Physics: An Algebra-Based Approach promotes problem-solving skills development while helping students to better understand physics. Based on the latest findings from Physics Education Research (PER), Physics: An Algebra-Based Approach focuses on student understanding through the use of engaging real-life applications, unique Fermi problems, conceptual examples, free body diagrams in mechanics and concept fixes based on research into common student misconceptions. Online support is available through text specific Enhanced WebAssign with the market-leading YouBook eBook.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Developed specifically to support Ontario's new Physics 12 College Preparation course (SPH4C), this highly readable resource addresses the needs of a larger and more diverse student base by placing a stronger emphasis on STSE and practical applications instead of theoretical rigour.
