“How’s it going?” is a language chunk or formula. It’s a phrase, collocation or expression with a specific meaning and a desired outcome. “Good, thanks.” The individual semantic parts of this chunk (how, ‘s, it, going) have other meanings on their own but as a whole in a particular order they mean something.

### ~~How Chunking Can Speed Up Your Language Learning~~

Comprehending what you hear and read is essential, but not enough. You need to have enough language (words, expressions, phrases) in your “repertoire” so that you can pick it up and use it the moment you need it. The question is, how do you store a lot of language in your repertoire archive, in a way that it’s there ready for you to use when you need to use it in conversation?

### ~~Definition of Chunking in Language Acquisition~~

Chunks are groups of words that can be found together in language. They can be words that always go together, such as fixed collocations, or that commonly do, such as certain grammatical structures that follow rules. A listener or reader uses their knowledge of chunks to help them predict meaning and therefore be able to process language in real time. Chunks include lexical phrases, set phrases, and fixed phrases.
