Introduction to Leadership & Management

Leadership is not an act or set of acts, it is a process. Leadership is not just influence, yet it involves influencing others through the leadership. While between the leader and followers, the influence is mutual, together, they influence the environment around them in some way. Leadership goes beyond goals.

Management Study Guide Leadership

Leadership is an essential tool for effective management and through leadership, managers influence, inspire and motivate associates to deliver services. Management, however, goes beyond being a leader and requires skills in planning, organizing, and controlling (Singh, 2016, Effective Governance, Leadership, and Management—Chapter 14).
