Can you remember that one time you got recognized or someone thanked you for your contribution to their life? You were a rock star, even for just one second. This book isn't about a charmed path to success or some untouchable fairy

tale that nobody can relate to-this is about going from rock bottom to rock star, something that everybody can relate to. In his first book, Blair shared the brutally honest story of how he went from an at-risk youth, sleeping on a mattress on the floor of a shack, to a self-made multimillionaire by his early twenties. As his story became a national sensation, fans started asking him how they too could become entrepreneurs, take their careers to the next level, and achieve financial freedom. Rock Bottom to Rock Star answers those questions. Blair has battled extreme obstacles: life as a former gang member, balancing a demanding career with single parenthood, building and selling multiple companies, and making and losing tens of millions of dollars (sometimes all in one day). He wants to help others avoid the mistakes he

made in the school of hard knocks, so he has compiled his unique advice for going from rock bottom to rock star in whatever field you chose to pursue. Much of his advice is counterintuitive, and definitely not what you would learn in business school. Here's one example: "Don't believe your own hype. The moment you start celebrating, you've left the stage. It wasn't celebration that made you a rock star. It was hard work." If you're serious about making the most of your life and you're ready to become the "rock star next door" instead of just looking up to them, this may be the most rewarding book you'll ever read.

Dana Sommer is a hard-working college student down on her luck. After losing her scholarship due to budget cuts, she now must find a way to, not only pay her tuitions, but also get her hands on \$50,000 to settle her brother ' s gambling debt, or she could lose the only family she has left. To resolve her impasse, she answers a Craigslist ad with a very unusual offer that could solve all her problems—marry a rich, spoiled playboy for one year and bear his child. The reward? Half a million dollars.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than

anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it.

In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

the author has taught very beautifully on this topic.

Felix Dennis is an expert at proving people wrong. Starting as a college dropout with no family money, he created a publishing empire, founded Maxim magazine, made himself one of the richest people in the UK, and had a blast in the process. How to Get Rich is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why "ownership isn't the important thing, it's the only thing."
