An eye-opening expose of and a heart-breaking lament for professional cycling Paul Kimmage's boyhood dreams were of cycling glory: wearing the yellow jersey, cycling the Tour de France, becoming a national hero. He knew it wouldn't come easy, but he was prepared to put in the graft. The

Hampson, 'Hambo' to his mates, was one of them. He had dreamt of playing rugby for England ever since he had picked up a rugby ball at school. His skill, conviction and dedication had brought him to the cusp of realising that dream, in an England U21 team that included Olly Morgan, Toby Flood,

Ben Foden and James Haskell. But as the two sets of forwards engaged for a scrum on the training field, the scrum collapsed and Matt, who played tight-head prop, took the full force of two opposing sides. In that moment his life changed forever. Paul Kimmage went to visit Matt as he recuperated, and

wrote a piece for the Sunday Times which won him his third successive SJA sports interviewer of the year award. They struck up a friendship and here, Paul tells Matt's whole story, in all its intimate detail. From the build-up to the dreadful day, to Matt's recuperation, to his struggle to adjust

This book considers the manner in which the making and implementation of law and governance is changing in the global context. It explores this

concepts and arguments in
contemporary social theory, including:
Dardot and Laval on neoliberalism;
Agamben on sovereignty; Hardt and
Negri on globalisation; and others
including Foucault, Deleuze and
Guattari, and Louis Dumont. The work

seeks to answer a question posed by both Foucault and Agamben; that is, given the growing primacy of the arts of government, what is the juridical form and theory of sovereignty that is able to sustain and found this primacy? It is argued that this question can be understood by reference to the

shift from a social or public contract that was understood to be the foundation of society, to a society that is constituted by consent, private agreement and contract. In addition, the book examines the juridical concepts of the rule of law and sovereignty. Commencing with the

Festina scandal of 1998, the Spanish case of Operación Puerto and concluding with the fall from grace of the American cyclist Lance Armstrong in 2012, the principal processes examined include: - The increasing crossing of the borders between different legal regimes (whether
