STRONGNamed one of the Top 10 Books of 2008 by The Times-Picayune. STRONGWinner of the 2009 Humanities Book of the Year award from the Louisiana Endowment for the Humanities.STRONG STRONGAwarded the New Orleans Gulf South Booksellers Association Book of the Year Award for 2008. New Orleans is the most elusive of American cities. The product of the centuries-long struggle among three mighty empires--France, Spain, and England--and among their respective American colonies and enslaved African peoples, it has always seemed like a foreign port to most Americans, baffled as they are by its complex cultural inheritance. The World That Made New Orleans offers a new perspective on this insufficiently understood city by telling the remarkable story of New Orleans's first century--a tale of imperial war, religious conflict, the search for treasure, the spread of slavery, the Cuban connection, the cruel aristocracy of sugar, and the very different revolutions that created the United States and Haiti. It demonstrates that New Orleans already had its own distinct personality at the time of Louisiana's statehood in 1812. By then, important roots of American music were firmly planted in its urban swamp--especially in the dances at Congo Square, where enslaved Africans and African Americans appeared en masse on Sundays to, as an 1819 visitor to the city put it, &"rock the city.&" This book is a logical continuation of Ned Sublette's previous volume, Cuba and Its Music: From the First Drums to the Mambo, which was highly praised for its synthesis of musical, cultural, and political history. Just as that book has become a standard resource on Cuba, so too will The World That Made New Orleans long remain essential for understanding the beautiful and tragic story of this most American of cities.

Unafraid to speak her mind and famously tenacious in her convictions, Eleanor Roosevelt was still mourning the death of FDR when she was asked by President Truman to lead a controversial commission, under the auspices of the newly formed United Nations, to forge the world's first international bill of rights. A World Made New is the dramatic and inspiring story of the remarkable group of men and women from around the world who participated in this historic achievement and gave us the founding document of the modern human rights movement. Spurred on by the horrors of the Second World War and working against the clock in the brief window of hope between the armistice and the Cold War, they grappled together to articulate a new vision of the rights that every man and woman in every country around the world should share, regardless of their culture or religion. A landmark work of narrative history based in part on diaries and letters to which Mary Ann Glendon, an award-winning professor of law at Harvard University, was given exclusive access, A World Made New is the first book devoted to this crucial turning point in Eleanor Roosevelt's life, and in world history. Finalist for the Robert F. Kennedy Book Award

With the help of text based on primary sources, full-color artwork, custom maps, and time lines, a detailed account of the charting of the New World outlines the causes and consequences of this defining age of exploration.

A monumental, groundbreaking work, now in paperback, that shows how technological and strategic revolutions have transformed the battlefield. Combining gripping narrative history with wide-ranging analysis, *War Made New* focuses on four "revolutions" in military affairs and describes how inventions ranging from gunpowder to GPS-guided air strikes have remade the field of battle—and shaped the rise and fall of empires. *War Made New* begins with the Gunpowder Revolution and explains warfare's evolution from ritualistic, drawn-out engagements to much deadlier events, precipitating the rise of the modern nation-state. He next explores the triumph of steel and steam during the Industrial Revolution, showing how it powered the spread of European colonial empires. Moving into the twentieth century and the Second Industrial Revolution, Boot examines three critical clashes of World War II to illustrate how new technology such as the tank, radio, and airplane ushered in terrifying new forms of warfare and the rise of centralized, and even totalitarian, world powers. Finally, Boot focuses on the Gulf War, the invasion of Afghanistan, and the Iraq War—arguing that even as cutting-edge technologies have made America the greatest military power in world history, advanced communications systems have allowed decentralized, "irregular" forces to become an increasingly significant threat.

Understand where we came from. Whether you're an avid student of the Bible or a skeptic of its relevance, *The Book That Made Your World* will transform your perception of its influence on virtually every facet of Western civilization. Indian philosopher Vishal Mangalwadi reveals the personal motivation that fueled his own study of the Bible and systematically illustrates how its precepts became the framework for societal structure throughout the last millennium. From politics and science, to academia and technology, the Bible's sacred copy became the key that unlocked the Western mind. Through Mangalwadi's wide-ranging and fascinating investigation, you'll discover: What triggered the West's passion for scientific, medical, and technological advancement How the biblical notion of human dignity informs the West's social structure and how it intersects with other worldviews How the Bible created a fertile ground for women to find social and economic empowerment How the Bible has uniquely equipped the West to cultivate compassion, human rights, prosperity, and strong families The role of the Bible in the transformation of education How the modern literary notion of a hero has been shaped by the Bible's archetypal protagonist Journey with Mangalwadi as he examines the origins of a civilization's greatness and the misguided beliefs that threaten to unravel its progress. Learn how the Bible transformed the social, political, and religious institutions that have sustained Western culture for the past millennium, and discover how secular corruption endangers the stability and longevity of Western civilization. Endorsements: "This is an extremely significant piece of work with huge global implications. Vishal brings a timely message." (Ravi Zacharias, author, *Walking from East to West and Beyond Opinion*) "In polite society, the mere mention of the Bible often introduces a certain measure of anxiety. A serious discussion on the Bible can bring outright contempt. Therefore, it is most refreshing to encounter this engaging and informed assessment of the Bible's profound impact on the modern world. Where Bloom laments the closing of the American mind, Mangalwadi brings a refreshing optimism." (Stanley Mattson, founder and president, C. S. Lewis Foundation) "Vishal Mangalwadi recounts history in very broad strokes, always using his cross-cultural perspectives for highlighting the many benefits of biblical principles in shaping civilization." (George Marsden, professor, University of Notre Dame; author, *Fundamentalism and American Culture*)

A definitive account of slave life in the Old South and the role of the slaves in fashioning a Black national culture.

focus all its energies on solving its problems at home? And is America really in decline? Robert Kagan, New York Times best-selling author and one of the country's most influential strategic thinkers, paints a vivid, alarming picture of what the world might look like if the United States were truly to let its influence wane. Although Kagan asserts that much of the current pessimism is misplaced, he warns that if America were indeed to commit preemptive superpower suicide, the world would see the return of war among rising nations as they jostle for power; the retreat of democracy around the world as Vladimir Putin's Russia and authoritarian China acquire more clout; and the weakening of the global free-market economy, which the United States created and has supported for more than sixty years. We've seen this before - in the breakdown of the Roman Empire and the collapse of the European order in World War I. Potent, incisive, and engaging, *The World America Made* is a reminder that the American world order is worth preserving, and America dare not decline.

In this "richly imagined" dystopian vision, mankind must find a way to survive as modern civilization slowly comes apart (O, The Oprah Magazine). When Earth ran dry of oil, the age of the automobile came to an end; electricity flickered out. With deprivation came desperation—and desperation drove humanity backward to a state of existence few could have imagined. In the tiny hamlet of Union Grove, New York, every day is a struggle. For Mayor Robert Earle, it is a battle to keep the citizens united. As the bonds of civilization are torn apart by war, famine, and violence, there are some who aim to carve out a new society: one in which might makes right—a world of tyranny, subjugation, and death. A world Earle must fight against . . . In his shocking nonfiction work, *The Long Emergency*, social commentator James Howard Kunstler explored the reality of what would happen if the engines stopped running. In *World Made by Hand*, he offers a stark glimpse of that future in a work of speculative fiction that stands as "an impassioned and invigorating tale whose ultimate message is one of hope, not despair" (San Francisco Chronicle). "Brilliant." —Alan Cheuse, Chicago Tribune "It frightens without being ridiculously nightmarish, it cautions without being too judgmental, and it offers glimmers of hope we don't have to read between the lines to comprehend." —Baltimore City Paper

All Things Made New explores the Christian mysteries in the tradition of St. John the Evangelist, and Mary, the Mother of Jesus, by studying the symbolism, cosmology, and meaning of the Book of Revelation, as well as the prayers and meditations of the Rosary, including the Apostles' Creed and the Our Father. These reflections lead us step by step to the foot of the Cross, and to the Wedding Feast of the Lamb, where all things are made new. "A lucid and thoughtful exposition of what is, by any standards, an extraordinarily dense and difficult book. Caldecott explains that the Apocalypse 'has to be received into the soul'; indeed, it is intensely relevant to our own times. His book is both rich in knowledge and rewarding to read." - Francis Phillips, Catholic Herald "The time may be right for just such a book as this, which takes seriously both the book of Revelation and the richness of the 'Here comes everybody' that is Catholic culture, which has a lively message to address to our bruised and battered world today." - Nicholas King, The Tablet "All Things Made New is a serious book about the most serious of things, the mysteries of faith, which all of us should encounter frequently and grasp ever more deeply. A book that will leave the reader wiser, holier, and both ready to practice the faith and eager to share it." - Fr. C. John McCloskey, National Catholic Register
