A third chapter deals with the ‘ The Archaeology of Slate Products ’ with evidence of Welsh roofing slate quarried and used from the second century A.D. in Roman buildings in Wales and probably used as far as London by 400 CE. In the Medieval period the slate industry continued its development in Wales and the Welsh/English Border Counties.

Welsh Slate: Archaeology and History of an Industry. Slates from quarries in Wales once went to roof the world. By the late nineteenth century as many as a third of all the roofing slates produced worldwide came from Wales, competing with quarries in France and the United States. This book traces the industry.
